PREFACE.

This collection is an interesting assemblage of the numismatic historical monuments commemorating the foundation of the French and British colonies in North America that subsequently comprised the Dominion of Canada. Some of the earliest of these were designed as awards to Indian Chiefs for their services or as tokens of friendship, and with the related series of medals awarded by the United States have been developed into the finest collection of them that has ever been made. Then the medallic memorials of the War between France and Great Britain, which involved their colonies in America, is represented by important and interesting examples, and medals referring to North America are included. These are followed by medals referring to the Revolutionary War of separation from the mother country, of the portion that subsequently formed the United States, together with a number of the very rare medals relating to the War of 1812, given by Great Britain to her troops who served in America; then another series of a few representative English coins of these periods and of British historical medals and the later coins and medals of Canada to the present time.

It forms, indeed, one of the most interesting historical numismatic cabinets that has been formed or offered in America, and the Indian Chief series alone makes it notable. In this last mentioned series we have before us many pieces of outstanding historical interest, such as the very rare early medals given by Louis XV to Indian Chiefs; the curiously altered specimen to be used as a medal of George III, and then the finest series ever offered of the rare medals of George III, reverse Royal Arms and reverse the curious type of the lion and wolf, in which this collection is more fully represented than in any other that has appeared. But outstanding in this series and, in fact, I would consider the gems and the most interesting of the entire collection, are the two medals of George III of 1764 and 1766, with his half length bust on the obverse and reverse inscription, HAPPY WHILE UNITED, with Indian Chief and British officer smoking the Pipe of Peace and a panorama of the harbor of New York in the background, the earlier of which bears the silversmith's stamps with his initials and N. York, proving that these medals were executed in America, and as has never before been published, I identify these initials with those of Daniel Chester Fueter, a silversmith of New York City, which also carries with them the identification of the excessively rare Montreal medal with a view of

the city and this punchmark; the one of the later date is, as far as I know, unique.

In the United States series we have two of the great silver plaques given by President Washington dated 1793 and 1795, and the original of the immense Thomas Jefferson medal in its presentation form of struck shells held by a silver band with heavy silver clamp and ring; and the continuing line of no less than twenty-two original silver medals given by the Presidents of the United States, and when we recall that no previous collection has ever contained more than about five of these medals, the reader may form some idea of its richness and importance in this series. The similar medal of Astor given by the American Fur Company, in silver, is of the highest rarity, as is also the engraved medal to McGillivray by the North West Company.

In the medals of the War between England and France of 1755 to 1763 is the great rarity in gold of the Louisburg Captured medal, No. 170, and also the rare medal of Oswego.

The Presidential medal in gold, No. 349, is worthy of special note.

I have placed the British general historical medals at the end as I seemed to find a better continuity of historical sequence of American pieces by doing so than if I had interspersed them in the middle of the American series, which seemed to lead on from the medals of the Revolution to the Canadian series.

Mr. Hunter, to whom we should feel grateful for this opportunity to view these memorials brought before us in their consecutive relationship, is a barrister-at-law at Toronto, and has shown his culture in this study of these truly important numismatic monuments of American History. He has given particular attention to the Indian Chief medals and searched for them throughout the Canadian provinces and purchased whenever they appeared there or in the United States. He visited in person the Canadian Indian Reserve on Manitoulin Island in Lake Huron, where the Government had brought together in this safe refuge the remnants of the Aborigines of the eastern provinces of the Dominion of Canada.

I guarantee the coins and medals to be originals or restrikes, as described.

I have arranged nine plates, containing the most important examples. The medals of the presidents of the United States given to Indian chiefs are so well known by the copper bronzed restrikes sold to collectors that I have not thought it essential to place any of them on the plates. Even the large Jefferson medal has been so restruck.

I will execute orders for the commission of 5%, on the amount purchased.

Price of plate catalogue $4.00 with price list after sale. Price list alone $1.00.

Faithfully yours,

38 LUDOVICUS XV. REX. CHRISTIANISSIMUS. Bust r. laur. and draped. Rev. HONOS ET VIRTUS. (Honor and Valor.) Two warriors standing with hands clasped; one, to r. representing France, in Roman uniform, the other to l. with only a cloak thrown around him and holding a spear in his r. hand. Silver. 35. Loop removed from edge. Worn, about good. B. 160. L. 301. Rarity 6. (The latter gives the size 32, an error).

Note:—The portrait is of about the year 1737, which gives us an approximate date for this medal. It is very rare. Plate I.

39 Same medal. LUDOVICUS erased and GORGE. III. punched in. This alteration indicates that either the Indian on the conquest of Canada by the English had this alteration made or that the English Governor needing a medal to reward a Chief had this medal altered for the purpose—the name of George being misspelled thru accident or ignorance of the workman. It is exceedingly rare or unique thus. This specimen is in rather better condition than the preceding, about very good. Betts mentions a specimen. See plate I.

The view may be obtained from the Heights of Brooklyn, except the indication of the Palisades, which is an artistic license in bringing them further south than in reality.

MR. WALTER C. WYMAN,

My dear Sir:—

Your letter of inquiry I received this morning. The Peace Medal I have is the same that you describe. I can give nothing of its history further than that it was given by an Indian to my Mother, who was the youngest daughter of John Lawe who figured quite prominently in the early history of these parts. The medal seems to be the only one of its kind in this vicinity and although I had set no price on it, one who calls himself a connoisseur says its value is from $50. to $75. Now I am not at all anxious to sell it, but if anyone wants it at that price they can have it.

Very respectfully yours,
(Signed) MRS. W. T. MOGER,
723 Mason St., Green Bay, Wis.

P. S. John Lawe—native of York, England; his father was a Captain in the English Army and his mother an English Jewess, a sister of Jacob Franks who came to Green Bay in 1795. In 1812 was Agent of the American Fur Company at Green Bay, during the War was a lieutenant in the Indian Department under the British and he was afterwards made Associate Judge of Brown Co., Wisconsin. He died in 1846, aged 66 yrs. He married at 20 Theresa Rankin whose father was an Englishman and her mother a Chippewa, who wintered on the Pishtego River and was frequently at Green Bay.

S. H. & H. CHAPMAN.

Gentlemen:—

Replying to yours of the 5th instant in regard to Medal sold Von Bergen, this medal was found between the logs of an old house which was being torn down, this house having been built during the early settlement of this country, somewhere near 1840, according to the oldest settlers here. It stood on what is called "Dug Hill," a high bluff overlooking the Missouri River.

When found the medal was thickly coated with lime and mud and the party finding tried to remove the coating by boiling in strong concentrated lye, which nearly destroyed the outline. On the reverse side from Geo. Washington you can dimly see a pipe and tomahawk crossed and the words "Peace and Friendship underneath 1840.

The medal was undoubtedly made by the U. S. Government and presented to the Indians at the formation of some treaty. Pewter.

Any other information you desire, which I can furnish, will gladly do so.

Yours truly,

Chicago, Ill.

Dear Sir:—

Regarding the Astor medal I sent you recently, beg to say that I found it on the prairie south of Dickinson, N .D., in the summer of 1882. I was on a viewing trip going to the Bad Lands. My companion and myself were attracted by a skull; we dismounted and noticed that it was the skull of an Indian with a bullet hole through it about two inches above the right ear. Near by we found the iron part of an old flint lock gun; a scalping knife and a medal. In order to divide the spoils we drew straws, my companion having first choice selected the gun and knife, hence this skull and medal fell to me. As to a history of the medal I have no information, but it was evidently

DESCRIBED BY S. H. CHAPMAN

given to the chief of a tribe of Indians trading with the American Fur Company, of whom John Jacob Astor was President.

I am pleased to allow you to have it to place in your valuable collection, which would be incomplete without it. It is the only Astor medal I have ever seen.

Yours truly,

(Signed) F. J. HAYNES.

THE accompanying photograph is of a silver medal weighing about two ounces which I excavated in the autumn of 1892 on property situated at the head of Lake Ontario, and comprising what was formerly known as Wellington Square; a tract of land owned by the late Joseph Brant, Chief of the Six Nation Indians, and a celebrated ally of the British during the troublous times in the early part of this century. From what I can ascertain, this medal is presumed to be one of those presented at an important Indian council held at the mouth of the Niagara River in 1764. At this council Sir William Johnston presented medals to the representative Chiefs of those tribes for bravery and faithfulness to the British during the Pontiac War. In the mound from which the medal was excavated was a large skeleton in a good state of preservation, presumably of an Indian Chief. The skeleton had two ivory rings in its nose, and by its side was found the following articles, viz., ~~scissors~~ knife, skinning tomahawk, pipe and hunting knife.

Our information regarding this medal is very meagre and we would be happy to receive any correspondence from you bearing upon its history.

Yours truly,

Samuel Thomas, Jr.,

Burlington, Ont.
